

## BIFRÖST.Lift | *vertical conveyor*

### FLEXIBLE CONNECTOR

The vertical conveyor BIFRÖST.Lift is especially designed to transport laundry articles to another level while keeping the items separated.

The conveyor can be used for all kinds of laundry items such as work wear, uniforms, health care, linen, and similar.

## BIFRÖST.Bend | *Corner modules*

### COMPACT DESIGN

The BIFRÖST.BEND.L90 and BIFRÖST.BEND.R90 are corner conveyors, which either turn 90 degrees to the left or to the right to transport laundry items in the right direction.

## BIFRÖST.Leg | *Legs for sorting modules*

### BEST COMPATIBILITY

The legs for the sorting system allow to get the right height for the BIFRÖST automatic sorting system.
